Great testimony regarding blood alcohol content. Had some great examples of alcohol effects on body that I believe really helped the jury understand impairment. Did a great job explaining the actual testing procedure in way that was easy to understand. Excellent job on cross-examination answering every question posed without any issue. Was obvious that you were extremely prepared for this case!!

I could not have been more impressed with Ms. Mazek. Her subject matter knowledge and preciseness in answering questions was amazing. She was also the best witness at speaking with the jury that I have ever worked with. This was my first time directing an FDLE expert and Ms. Mazek was extremely informative and helped me along where I stumbled.

Ms. Mazek was an outstanding witness. She provided a professional, detailed, and UNDERSTANDABLE presentation. Her jury presence was wonderful (she spoke "with" the jurors rather than speaking AT them, maintained confident eye contact, and made substances like cocaethylene understandable and relate-able to the jury). All in all, she was an invaluable asset to the State (even though she truthfully presented some evidence adverse to MY case... she showed that she was truly a impartial professional)!

Before trial, Ms. Mazek was incredibly helpful. I had little to no knowledge of how blood was tested, and she patiently walked me through the process step by step. During cross, the defense attorney was less than professional with Ms. Mazek and his questions were very redundant. Ms. Mazek remained the consummate professional throughout both direct and cross and was able to explain the procedure and results in a way that the jury could understand.

Ms. Mazek appeared very confident and polished on the witness stand. She fielded not always the best questions from me (due to the fact that I had never done a direct examination of a FDLE toxicologist). However, she made the urine test procedure and results very understandable to the jury. I appreciate her work in this case.
